## Maintenance : Watch Cleaning Service

No matter how sophisticated a watch is, it will accumulate various types of dirt over time, which is not only unsightly and unhygienic, but also has the chance of clogging the parts and affecting the functioning of the watch. Ultrasonic watch cleaning removes dead skin, dirt and stains from the surface of your watch, preventing the growth of bacteria and leaving it cleaner and shinier. Your watch will be cleaner and shinier, giving your watch a new look.

Go to [www.wav.tech](http://www.wav.tech) to make a reservation and enjoy the service at the W.A.V Watch Certification Centre. Subscribe to ZNAP membership for free access:  
Advance Plan - **2 times per year**;  
Prestige Plan - **Unlimited times**.

**Value \$ 960** / EACH

## Maintenance : Watch Repairing Service\*

The integrity of a watch's functionality has a direct impact on its market value, and the accumulation of component problems can cause irreversible damage to the movement. A professional, locally registered watchmaker® protects the health of each watch for ZNAP subscribers and saves the cost of expensive repairs. Collect, pass on or let go, your watch will be in top condition.

## Anti-counterfeiting : Watch Authenticity Verification Service and Report

'Fidelity' is the absolute prerequisite for "preservation of value". We are concerned about the risks of counterfeit watches, money and personal safety that our members face when buying and selling watches. As the world's first artificial intelligence watch certification body, the W.A.V. Watch Authenticity Verification Centre identifies the slightest differences between ZNAP subscriber watches and counterfeits and compares them to a large database of data obtained from industrial microscopes and precision measuring equipment. The report is issued after comparison with a large database of data obtained from industrial microscopes and precision measuring equipment.
